

Achievement Practices

Let PowerSchool guide your staff development to prepare your teachers and administrators to achieve success and drive improvement.

Extensive Achievement Practices programs help educators master the technology, best practices, and standards of today's education landscape.

Cultivating a global shared vision for 21st century professional development is imperative. Students' expectations are that their teachers will provide them with the knowledge and skills which will empower them to function effectively now and in the future.

Likewise, educators expect they will be provided with professional development opportunities that will support them in transforming districts, schools, and classrooms.

Whether it is aligning curriculum and content, creating effective assessments, using data to guide instruction, or providing effective, sustained professional development, PowerSchool coaches provide quality programs to school personnel that make a positive impact on student achievement.

PowerSchool Achievement Practices are preparing teachers, administrators, and students to exceed 21st century expectations through a variety of engaging professional development modules including:

Data Meetings and Data Driven Professional Development Workshops

Individual Teacher Mentoring, Coaching Cycles, and Modeling

Content Area Meetings, Curriculum Mapping, and Pacing

Pre-ACT/ACT Student/Teacher Preparation Sessions
