

# Performance Matters Program

Join us on an adventure to build assessment and reporting capacity across your organization with the Performance Matters Program using Schoology Learning. The Performance Matters Program is delivered via a blended model using the Schoology Learning platform for content sharing and asynchronous instruction.

Transform classrooms while delivering personalized data-driven instruction, managing progress for all students, and assessing student progress to address instructional gaps.

Model best practice to combine face-to-face, synchronous, and asynchronous sessions to gain a deeper understanding of comprehensive assessment management.

Ensure teachers of younger learners have the tools they need to quickly and easily observe and record student performance.

Use analytics for better student outcomes to create and share reports with your staff easily and securely.

The Performance Matters Program is a nine-month professional learning program designed for a cohort of educators (classroom teachers, instructional leaders/coaches, curriculum specialists, etc.) from your organization. Through a blended format, teams will engage in face-to-face professional learning days, collaborative web sessions, monthly personalized learning opportunities and ongoing collaboration and coaching with educational experts from the Customer Education Team.

Participants have the opportunity to collaborate with other stakeholders in your organization as they design assessments, items, rubrics, and analyze reporting data to drive district and school improvement plans. Our team of educational experts will help drive continuous improvement in your organization, while also ensuring you're utilizing Schoology Learning at the highest levels possible.

## Program Information:

- Three face-to-face days of professional learning.
- Monthly synchronous or asynchronous learning.
- Virtual support, coaching, and collaboration with an educational expert on the Customer Education Team.
- Collaboration opportunities with educators in the program.
- Participants receive a digital badge and certificate upon successful completion of the program.

## Program Structure

**Session 1:** Creating Quick Formative Assessments to Analyze Student Performance

**Session 2:** Developing Assessments for Measuring Growth on Learning Standards

**Session 3:** Student Data Scavenger Hunt/ Identifying Reteaching Opportunities from Administered AKO Assessments

**Session 4:** Constructing Items and Comparing Multiple Measures

**Session 5:** Capturing Assessment Data with Observational Assessments and Rubrics

**Session 6:** Creating PLC-Based Assessments to Monitor Student Growth/ Identifying Gainers, Stickers, and Sliders to Evaluate School Year Goals

**Session 7:** Creating Technology-Enhanced Items to Vary Assessment Rigor

**Session 8:** Sharing Assessments for Cross-Classroom Analytics

**Session 9:** Creating PLC-based Summative Assessments to Monitor Student Proficiency

**Session 10:** Predict Proficiency and Planning for Next Year's Instruction
