Best Practice Ideas

- More containers, less tags
 - No scrolling
 - Tagging during Course Creation
- Container suggestions
 - Subject area
 - Teacher support
 - Student support
 - Grade level
 - Core values

The screenshot shows the 'performance matters' web application interface. The top navigation bar includes links for Home, Observations, Badges, Courses, External Credit Request, Transcript, Mobile, PD Playlist, Room Management, Registration Approval, My Evaluations, Staff Evaluations, Resources, Reporting, Administration, My Courses, My Staff, Mentoring, Calibration, and Instructor. The main content area is titled 'Manage Course Tags' and features a sidebar on the left with a list of administrative tasks. The main area contains a section for 'Add New Container' with several expandable categories: Remote Learning Courses (Self-Faced, Online Meetings, Webinar), Subject (Language Arts, Mathematics, Science, Health, Social Studies), Educational Practices (Special Education, Technology, Classroom Management, Equity, Differentiation, Universal Design for Learning Micro-credential asdf), Student Support (Reading Support, Gifted), and Grade Level (Elementary, Middle School, High School).

22.9.0.0 Release Notes for Professional Learning (Deployment Date: 9/18/22)

Product Area	Type	Summary	Release Note
Professional Learning	Improvement	Admins Able to Edit Start and End Date of Schoology Courses	Professional Learning administrators with permission to build and manage courses are now able to edit a section of a course that uses Schoology, such that the Start Date and End Date for that section are updated in Schoology and these dates are in sync.
Professional Learning	Issue	Resolved Incorrect Error Message	An issue has been resolved where a misspelling was seen in an error message for Adhoc reports.
Professional Learning	Issue	Resolved Schoology Account Creation Issue	An issue has been resolved where Schoology accounts were not being created for new users when they registered for Schoology courses.
Professional Learning	Issue	Resolved Staff Groups Issue	An issue has been resolved where Staff Groups were not able to be deleted.
