Ad-Hoc Reporting

The screenshot displays the Ad-Hoc Reporting interface. At the top, there is a dark header bar with the following controls: 'Select All' (checkbox), 'Sort' (radio buttons with up/down arrows, highlighted with a yellow circle), 'Filter Option' (checkbox), 'Graph Option' (checkbox), and 'SEARCH ROSTER' (text). Below the header is a table with three rows. Each row has a 'Select' column (checkbox), a 'Sort' column (radio buttons), a 'Filter' column (checkbox), a 'Graph Option' column (radio buttons for 'Pie', 'Bar', and 'x'), and a search criteria column. The first row is highlighted in light blue. The search criteria for the first row are: 'Last Name' with a 'Contains' dropdown and an empty text input. The second row has 'First Name' with a 'Contains' dropdown and an empty text input. The third row has 'Roster Status' with an 'Equals' dropdown and a dropdown menu showing '--'. The 'Sort' column in the first row has the top radio button selected.

Dynamically republish

By enabling dynamic publishing, this content will automatically be targeted or removed from individual users when their personal information, such as location or demographic information, is updated.

For example, if a user moves to a new location, enabling this feature will automatically hide the content from the user if the user's new location is not a recipient of this content.

Set Dynamically republish:

Automatically republish

Do not republish
