To create the **2024 Education Focus Report**, **PowerSchool** spoke with more than district leaders, teachers, parents, and students. We also deployed a **national survey of U.S. educators**, gathering individual responses from a **wide range of school and district roles**.

- February 27 - March 26, 2024
- Limited responses to the U.S. and U.S. Territories

SURVEY RESULTS

Survey Respondents by Role

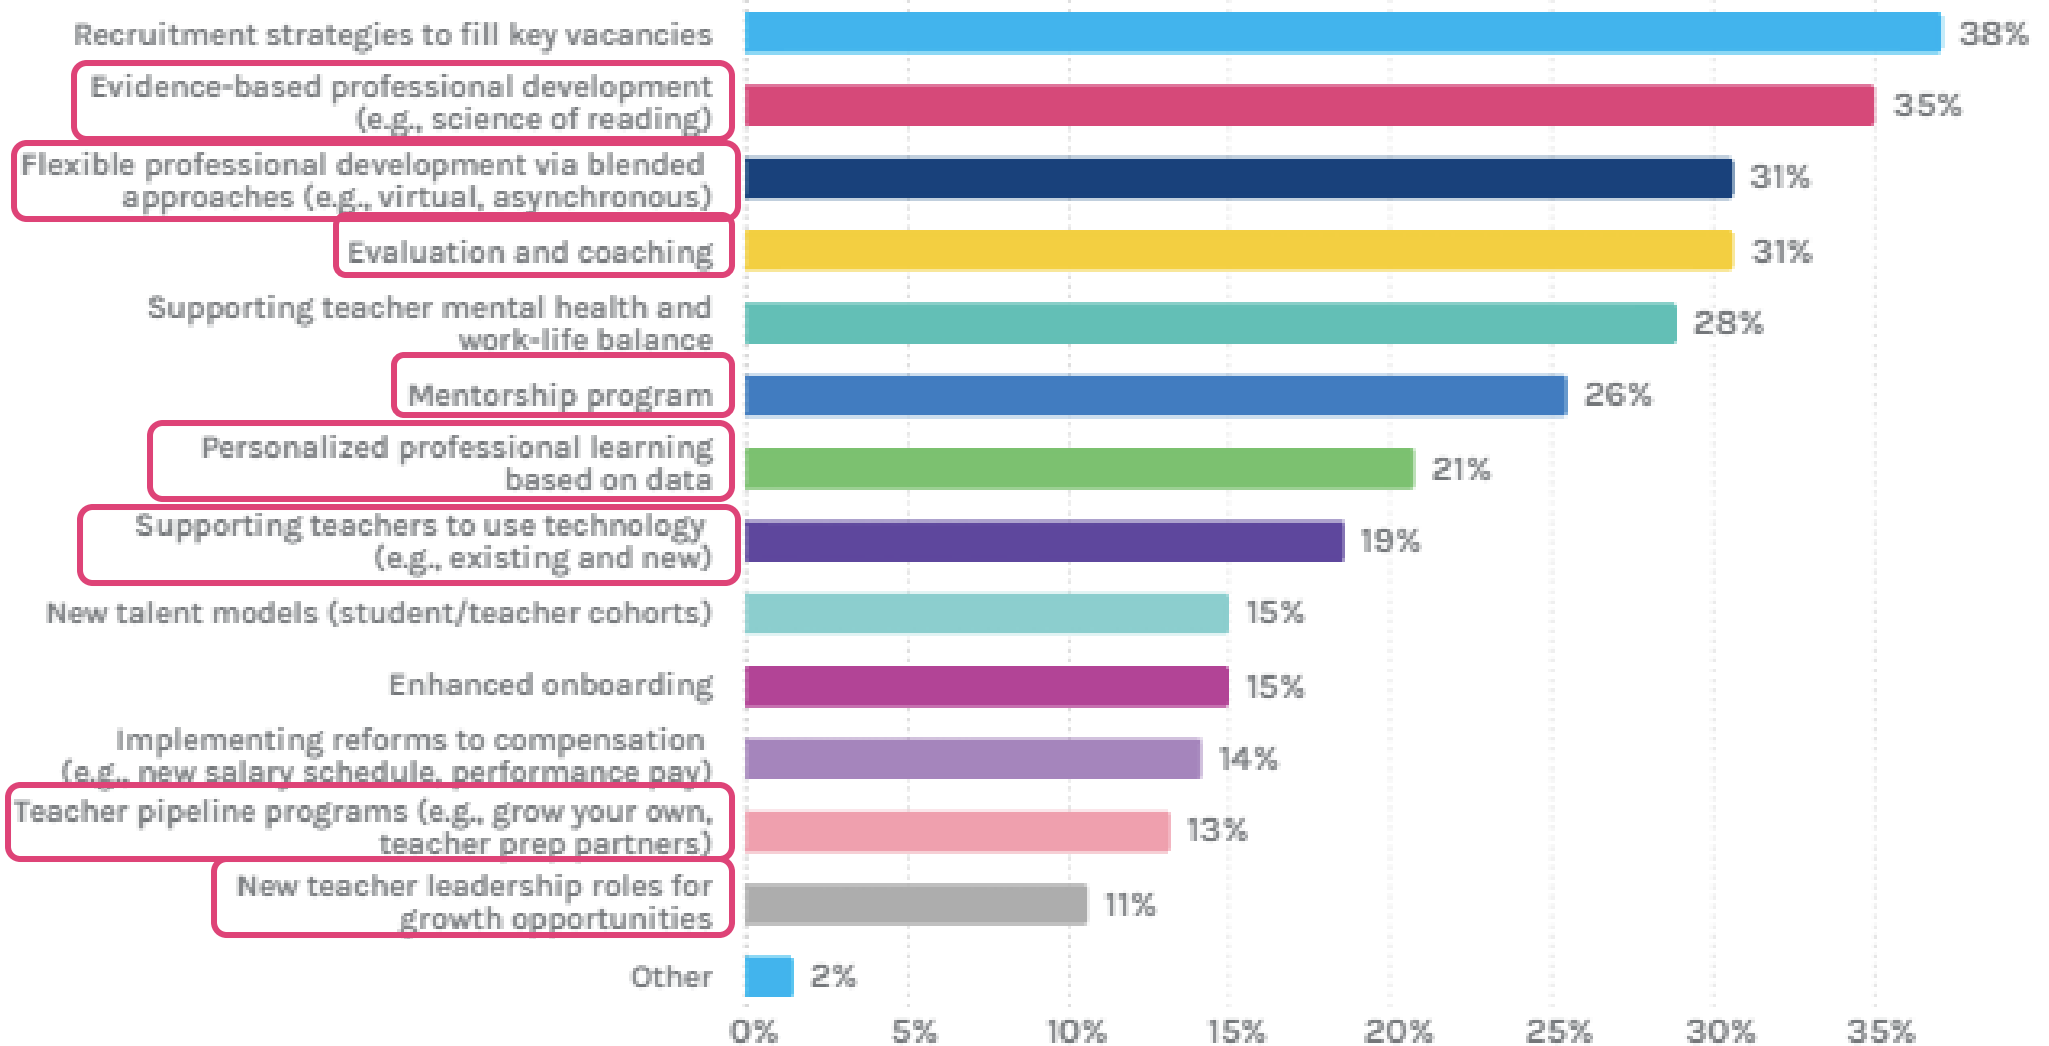

Survey Respondents by Years in Education

- More than 20 years

**How can we meet the
needs of the teachers
and students without
increasing professional
development
demands?**

Things to Remember

- Identify clear and targeted learning goals
- Know your audience (current skillset and knowledge gaps)
- Less is more, include only essential content
- By breaking down complex concepts into smaller, more manageable pieces, learners can retain information better and apply it more effectively
