

# Student Assessment Review

**Student Assessment Review** allows students' tests and answers to be reviewed by students and parents.

Test sessions may be created or modified to allow students to review one of two ways.

1. Immediately following the submission of a completed test
2. Once all tests have been graded

**Pro Tip:** To prevent any potential instances of students sharing answers (i.e. with an absent student or students from another class), we recommend editing test sessions to allow students to review their answers once all tests have been graded.

## Enabling Student Assessment Review

Student Assessment Review is enabled during the creation of a test session or by editing an existing test session after all students have submitted their exam.

- **Note:** This feature is not available for Quick Key assessments.
1. Navigate to **Testing Center**, then select from the **Subject** and **Exam** drop-down menus.
  2. Select the class.
    - a. To create a new test session, right-click on the appropriate class period and select **New Test Session** from the drop-down list. Name the test session and select the test type.
    - b. To edit an existing session, click **Menu** and select **Edit Test Session** from the drop-down menu.
  3. Click the check box next to **Allow Review**.

4. The **Review End Date** defaults to 30 days from the current date. The **Review End Time** defaults to 12:00am. A custom Review End Date and Review End Time can be set by clicking and selecting from the respective drop-down menus.
5. Click **Create Test Session**.

## Student Assessment Review from PowerTest

If Student Assessment Review is enabled prior to students testing, students can review their assessment after submitting their completed exam. After clicking **Submit**, a message appears asking student whether they wish to **Review Exam** or **Exit**.

If a student clicks **Exit**, a confirmation message appears asking if the student is certain that he or she wishes to exit PowerTest.

- a. Click **Yes** to exit PowerTest.
- b. Click **No** to return to the previous message.

Click **Review Exam** to open the Student Assessment Review window.

- **Note:** If the assessment includes a Constructed Response item, a message appears indicating the presence of the item and alerts you that the assessment has not yet been graded.

The header of the Student Assessment Review window lists

- **Student Name**
- **Exam Name**
- **Student Score**
- **Course Section**
- **Teacher**
- **Exam Date**

1. The **Item** tab allows you to see the item, available answer options, the student's selected answer(s), and notes the correct answer(s).

Use the navigational arrows to navigate between items.

**Note:** Items appear in the same order as a printed copy of the assessment.

2. The **Article** tab allows you to view the resource associated with the item.

3. The **Instructions** tab displays a description of the item type and explains how students should respond to that item type.

## Student Assessment Review Passwords

Students and parents may review a student's assessment at any time during the assigned review window using a unique password.

**Note:** A review password is not necessary if test sessions are created to allow review immediately following a student submitting the assessment.

Review passwords can be printed two ways.

1. A list of review passwords may be printed directly from **Testing**

**Center.** Click **Menu** and select **Print Review Passwords** from the drop-down menu.

A list of student and unique passwords is generated and may be printed.

2. Once students' exams are graded, a **Student Exam Grade Sheet** may be printed for each student in the test session.
- Hover over **Reporting** and select **Assessment Results**.

- b. Select the **Subject** and **Exam** from the drop-down menus.
- c. Select the class from the list on the left.
- d. Click the **Grade Sheet** tab on the right.
- e. To print a **Student Grade Sheet** for the entire class, click the printer icon to the right of **Class Totals**. The report includes a unique password for reviewing the student's assessment.

Question	Standard	Reporting Category	BT	Selected Answer	Correct Answer
1	ENGL-6.5c	Demonstrate comprehension of fictional texts	( 4 )	C	C
2	ENGL-6.5c	Demonstrate comprehension of fictional texts	( 3 )	C	C
3	ENGL-6.7b	Research, plan, compose, and revise ( 2 ) for a variety of purposes		B	B
4	ENGL-6.7b	Research, plan, compose, and revise ( 3 ) for a variety of purposes		A	A
5	ENGL-6.7b	Research, plan, compose, and revise ( 3 ) for a variety of purposes		D	D

## Logging In to Review an Assessment

1. Navigate to the Assessment & Analytics login screen. The **Students** and **Parents** tabs include the option to **Review an Assessment**.

2. Select the appropriate tab and click **Review an Assessment**.

3. Enter the student's **Student Number** and unique review **Password**.
4. Log in to be directed to the Student Assessment Review window.
