

# Performance Matters Learning Journey

## Ongoing Professional Development Services

PowerSchool has a professional development journey you can take to ensure success with your Performance Matters solution! Choose from a variety of professional development offerings based on the latest educational research, using strategies that have been proven to elevate professional practices.

The journey includes offerings that are tailored to specific waypoints along the learning path and offerings that can be beneficial at any stage of your development.

Below is a brief description of each Customer Education offering. Click the navigation buttons and text links for more information and to learn how to register.

### USER ROLES

Each district or school we work with should designate attendees to fill certain roles that help carry out the training process. The roles for Performance Matters training are defined as follows:

- DA District Admin**  
The highest level of access usually reserved for users who manage the system
- SA School Admin**  
Access to all teachers and classes within one or more schools with different menu options than Principals
- DU District User**  
Users who need access to district data
- T Teacher**  
Users with access to only their students
- P Principal**  
Access to all teachers and classes within one or more schools
- CT Co-Teacher**  
Users with access to a limited number of students, across classes

**Solution Training**  
Learn core product training for a solid foundation using your solution.

REQUEST EXCLUSIVE

**Standard User Certification**  
Courses can be taken individually, but becoming certified is the most effective way to gain a comprehensive understanding of Performance Matters' cutting-edge solutions. The Performance Matters Standard User Certification requires completion of the following three courses:

- Test Design and Delivery
- Introduction to Item Writing
- Dialogues with Data

**Power User Certification**  
Courses can be taken individually, but becoming certified is the most effective way to gain a comprehensive understanding of Performance Matters' cutting-edge solutions. The Performance Matters Power User Certification requires completion of the following four courses:

- Test Design and Delivery
- Introduction to Item Writing
- Dialogues with Data
- System Administration

**Continuing Education**  
Take customized professional development based on district objectives and continuous improvement goals.

LEARN MORE

**Performance Matters Program**  
The Performance Matters Program is a nine-month professional learning program designed for a cohort of educators (classroom teachers, instructional leaders/coaches, curriculum specialists, etc.) from your organization. Through a blended format, teams will engage in face-to-face professional learning days, collaborative web sessions, monthly personalized learning opportunities and ongoing collaboration and coaching with educational experts from the Customer Education Team.

**Strategic Solutions Consulting**  
Learn from an expert PowerSchool consultant who will assist you and serve as a trusted advisor to provide highly variable and flexible consulting solutions designed for your unique district needs.

LEARN MORE

**PowerSchool University (PSU)**  
Attend an onsite or online event to learn valuable solutions, strategies, and techniques in how to use PowerSchool products for everyday responsibilities.

REGISTER

**PowerSchool's Premier User Training Events**  
PSU | PSU Educators | PSU International | PSU Remote Plus | PSU Express

At PSU, attendees learn valuable solutions, strategies, and techniques for everyday PowerSchool responsibilities. For novice to advanced PowerSchool users, PSU offers a wide variety of courses taught by the school or district trainers. Each course is specifically designed for the participant's role at the school or district. We invite you to learn, share, and experience all that PowerSchool University has to offer.
