

This year's Scheduling Season is going to be a Whole New Ballgame

COVID-19 has thrown school districts a major curveball this year, but PowerSchool has the knowledge and expertise to help you meet these challenges head-on. We have a wide variety of training and consultation offerings that will help you step up to the plate and knock it out of the park!

Challenges

- How do we use PowerScheduler to create blended learning schedules?
- Can we use PowerScheduler to create different kinds of schedules (Virtual, Face to Face, Blended)?
- How do we pivot on our master schedule at the last second?
- What are the considerations for building a new schedule?
- What is the right model for us?
- Where do we need to build capacity in our master schedule?
- How can multiple bell schedules support instruction?
- How do I build a schedule to meet the needs of learners in different environments?
- How do I build teaming and collaboration into a virtual setting with a master schedule?

Opportunities

Product Training

Learn to create new schedules with robust features that you have never used before. Our PowerScheduler training offerings will help you face the challenges of the upcoming school year.

MSBW

Through conceptual discussions and creative exercises, Master Schedule Building Workshop will show you how to create an impactful and effective schedule.

Achievement Practices

We will support district leaders in determining the scheduling practices that work best for their district; Scheduling that positively impacts student learning and educator professional growth.

- How is remote synchronous and asynchronous attendance measured systematically?
- How do we modify our attendance policies and setup?
- How can we use enterprise reporting to examine attendance patterns?
- How do new attendance practices impact ESSA requirements?
- How do we need to redefine attendance policy?
- How do we manage chronic absenteeism and student engagement?

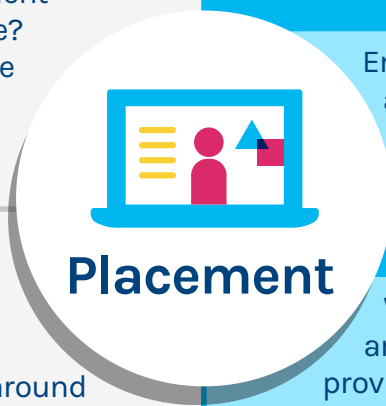

Product Training

Learn to create new Attendance Codes, redo Attendance Conversions, and design new reporting features. Explore a new feature for taking blended attendance.

Achievement Practices

Taking attendance has never been more complicated! We'll work with your district leadership to redefine and develop policies to manage attendance and student engagement.

- What does our new workflow from student placement to master schedule look like?
- What system data do I use to determine student placement?
- How do I determine student gaps with assessments?

Product Training

Ensure you are effectively using grade scales and analytics to inform strategic decision making with our PowerSchool Performance Matters Training.

Achievement Practices

We will ensure that your district is tracking and analyzing multiple, holistic data sets to provide a clear vision for student placement and identifying the learning gaps.
